

MACP AGM 2024

November 2024

Report:	Committee for Education and Approval
Committee Member:	Dr Andrew Cuff, Chair
Date of report:	October 2024

Overview of Year

This year has focused on enhancing the governance and leadership infrastructure underpinning our portfolio routes to membership (including the onboarding of an external assessor), enhancing their accessibility.

Regarding HEI routes to membership, we've been informed of two universities closing down their MACP-accredited programmes (Brighton, Coventry) alongside Liverpool Hope being successfully onboarded, and active conversations with one other HEI to accredit their programme.

Ongoing support to Course Leads, with a focus on how students may fulfil their education and research pillar within their MSc studies.

Key Development Plans for 24/25

- Implement and enhance our portfolio route to membership pipeline by completing initial cohorts from the independent sector and international membership.
