

## MACP AGM 2024

4<sup>th</sup> November 2024, 6.30pm-8pm

Report:	PDC
Committee Member:	<b>Hazel Rudder (covering maternity leave for Komal Bhuchhada)</b>
Date of report:	<b>30/09/2024</b>

### Overview of Year

This year has been incredibly busy with continued high delivery of online courses, in addition to the return of face-to-face courses. This includes the new Strength and conditioning in Clinical practice – the lower limb course.

The PDC have delivered two face-to-face imaging courses in Dublin and there are three further MACP courses pending at St George's hospital in London in 2024.

Our courses this year have had international participants and have been delivered in the UK, Ireland and online from Australia.

The PDC consists of **Samantha Simmonds, Sinead Delaney, Tina Blewett, Basil Tyros, Ashish Sharma, Jenna Jagodzinska and Lydia Oninye Mbemena**. Our courses would not run without such a fantastic team who promote, advertise, design posters and host these courses. The PDC still promotes on various platforms including Instagram, Twitter (X), frontline and iCSP. Emma and Katie (MACP admin team) are also now assisting with course promotion via social media to ensure regular delivery of content/posts. The team consistently dedicate their time and effort to promote, meet tutors and virtually host our courses. This allows tutors to concentrate on the course itself rather than the technical aspects.

This year, due to commitments elsewhere, the PDC have lost Feroz Yaseen and we are obviously missing Komal Bhuchhada who is currently on maternity leave. Luckily, we have gained Lydia and Emma from the MACP admin team has also now started "hosting" online courses when needed. This has allowed courses to run, when previously they would have needed to be cancelled.

### **Progress against organisation's strategic aims**

All courses are delivered by tutors with expertise in their fields. Each course has been mapped to the FCP roadmap at a high standard to support MACP portfolio. The most popular courses requested and sold are the advancing roles courses, but we are now delivering some more nuts-and-bolts courses around rehabilitation and consultation skills, which should appeal to a wider audience of physiotherapists.

### **Existing MACP Courses – 17 in total**

COURSE TITLE	TUTOR (S)
Spinal Masqueraders	Chris Mercer, Laura Finucane, Susan Greenhalgh
Spinal Masqueraders Expanded	Chris Mercer, Laura Finucane, Susan Greenhalgh
Integrating Imaging into Musculoskeletal practice Lumbar Spine	Chris Mercer
Integrating Imaging into Musculoskeletal practice Shoulder	Sharon Morgans/Cathy Barrett
Integrating Imaging into Musculoskeletal practice Knee	Jessica Gent
Integrating Imaging into Musculoskeletal practice Hip	Neil Stewart, Amie Coombs
A Taste of Motivational Interviewing	Robert Shannon
Pregnancy, Post-natal & female pelvic health for the Musculoskeletal Physiotherapist	Gerard Greene
Optimising The Function of the shoulder girdle- Making sense of the dysfunction	Ian Horsley
Demystifying Blood Tests in MSK Health	Giles Hazan
Pain: Translating Neuroscience into Clinical Practice	Niamh Moloney, Martin Rabey
<a href="#">Msk?...Think SpA! Recognition and referral of Axial and Peripheral Spondyloarthritis</a>	Carol McCrum
<a href="#">Manual Therapy in Early-Stage Knee Rehabilitation</a>	Nicolas Clark
<a href="#">Understanding Medication in Pain Management</a>	Giles Hazan, Jonathan Kenyon
Strength and Conditioning in lower limb rehabilitation	Uzo Ehiogu
Thoracic spine pain and dysfunction	Nicola Heneghan
Essential Consultation Skills for FCPs	David Alderson

## Developing Courses to be launched for 2025

- Essential Consultation Skills for FCP's is a brand-new face to face MACP course. A few interested parties have been shown the course content and the MACP are awaiting some confirmation dates for course bookings.
- Integrating Imaging into Musculoskeletal practice – the Cervical Spine is still under development.

Bloods	Giles	Public Online	Lydia	new

### **Key Development Plans for 24/25**

- Explore running courses at an international level whether this be face to face or virtual - increase international profile of courses
- Aim to increase our course profile e.g. further exercise-based rehabilitation course and consultation skills
- Utilise existing venues who are keen to host MACP courses, to deliver new course content in 2024/2025.
- Explore some face-to-face venues where courses can be held and organised by the MACP rather than by a hospital that will 'host'
- Increase portfolio to include some biopsychosocial/motivational interviewing courses.
- Administration team have added information to booking information around MACP membership benefits which is sent out every time a delegate books for a course.
- Provide more guidance/support for course tutors to facilitate self-promotion of their own courses
